The Career for You

Do you enjoy working with people? Interested in starting your own business? Needing alternative or flexible employment?

Electrologists earn an average of \$75 an hour!

Set your own work hours - make this a part-time or second career.

Be your own boss! With a minimal investment, you can own your own practice.

The demand for trained electrologists is huge and growing. Hair removal is a multi-billion dollar industry and electrolysis is still the only permanent method of hair removal.

The School

The American Institute of Education (A.I.E.) is celebrating its 23rd year of training electrologists. Our staff of State approved, Licensed Professional Electrologists are both practicing professionals and certified electrology instructors. For more information visit us online at www.aielectrology.com
