The Beau Institute, established in 1990, is a world-renowned training center for permanent cosmetics, areola tattooing and permanent camouflage. Rose Marie Beauchemin, President and Director of Education, has built her reputation with both a comprehensive training program and continued support of the graduates of her institute. Simple and safe techniques that produce confident graduates are the focus. Making color theory easy is also an area that Ms. Beauchemin takes great pride. "The focus on aesthetics has never been greater than now", says Ms. Beauchemin, "and this applies to those interested in procedures and those seeking a new career".
