Huntington Academy offers a full 6-days of beginning education for the discerning student as well as continuing education through-out the year. Established in 1992 and presently offering the most comprehensive and hands-on training course in the industry. We far surpass the training requirements offered at other schools. Huntington Academy is the west coast distributor for the newest "state of the art "*Nouveau Contour*" digital machine system. This system far surpasses other machines and tools offered in the industry today. Digital offers you perfection in your procedures while causing less trauma and faster healing to the skin.
