Medical Aesthetix provides training and education for licensed medical professionals of all specialties on the most requested aesthetic procedures such as Botox, Dermal Fillers, Mesotherapy, Chemical Peels, Microdermabrasion, Laser and IPL treatments. All courses are approved by the AAFP for 16.5 CME Credits. The course also covers subjects such as marketing and evaluating the cosmetic patient and has the most hands-on training, on live models, of any introductory aesthetic training course available.
