Mary Arnold-Ronish, CPCP, brings more than 30 years of experience as a registered nurse to the permanent makeup industry. She founded her permanent makeup business in 1993. She is a specialist in color adjustments and corrective procedures such as lip color, eyebrows and eyeliner, with more than 60% of her practice devoted to corrective procedures.

Mary recently created the Tattoo Vanish procedure of removing tattoos using Salabrasion (salt). This process is less expensive, has less discomfort, takes fewer treatments and removes all colors of tattoos. See a demo at <http://www.insurancejournal.tv/videos/1917/>
